

Science **made** smarter

AD528

Diagnostics made easy

Compact & easy to use air, bone & speech audiometer

The AD528 is the perfect audiometer for any clinic, hospital or dispensing office looking for diagnostic power that can be scaled according to specific test needs.

- Starts in a few seconds. Makes it ideal if you travel and have many power ups during the day
- Easy to use. Few buttons ensure a short learning curve
- Fast masking on/off. Just turn the right wheel to turn masking on and off
